All our mission trip volunteers and interns, whether short term or long term require participation in a training day upon arrival in Kenya prior to interaction with children and vulnerable communities – for long term interns this training would be on-going.

This training is an enjoyable workshop which consists of basic trauma care training, basic family reunification training, an overview of our safeguarding policies and basic language + culture awareness training.

Please check this box to indicate you understand & consent to participate in the above.

I understand that if my application is successful the position is self-funded. I am responsible to cover my own flight costs and upkeep costs while in Kenya. (It is okay to raise funds from individual friends and family/people in your home church to enable you to serve as an individual).

I am responsible for my own travel insurance costs, and I require this.
